

DODGE CHARGER

**SRT-8**

***DISPLACES 6.1 LITERS AND EVERYTHING IN ITS PATH.***

**CHARGER SRT8.** It's not bragging if you bring it. The intensely powerful 6.1-liter SRT HEMI® V8 engine inside Charger SRT8 combines 425-horsepower and 420 lb-ft of torque with a performance tuned suspension. Charger SRT8's low-slung stance intimidates like its numbers. The unique SRT8 hood with functional air intake scoop, sloping roofline, and rear spoiler pay homage to its classic muscle car heritage, while the sleek coupe-inspired design delivers a modern dose of real-world versatility.

When it comes to bang for the buck, Charger SRT8 is deafening.

**CHARGER SRT8.** The 6.1-liter 425-horsepower SRT HEMI® V8 works in tandem with the high-performance suspension system creating outrageous power and superb handling. The Electronic Stability Program\* with Emergency Brake Assist, performance-tuned steering, and Brembo Performance braking with antilock and all-speed traction control complements the rear-wheel-drive system. The SRT8 carbon fiber leather-wrapped steering wheel features audio controls for an available Kicker Sound System with 11 speakers, 276-watt amplifier, and 200-watt subwoofer as well as a DVD-based GPS Navigation System. Leather-trimmed performance front seats with Preferred Suede® inserts feature the embroidered SRT8 logo in the headrest, and red accent stitching with matching trim on the rear seats to stir your senses. Floor it over to [dodge.com/charger](http://dodge.com/charger) or call 800-4ADODGE.

\*No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Please always use your seat belt. Preferred Suede is a registered trademark of Milliken & Co.
