

CIVIC TYPE *R*

Dominate the pavement.

When 70 years of engineering for the racetrack is distilled into one Civic, you can expect a visceral driving experience simply unmatched anywhere else. The 306-hp¹ VTEC® turbo engine provides a staggering 153 hp per liter, and a stiffened lightweight frame coupled with purpose-built suspension components enable enhanced stability at the limit. Its wheels may be firmly on the road, but the soul of Type R emanates from the track.

Engineered precision.

Twenty-inch alloy wheels paired with sticky maximum-performance summer tires² help create a superior connection with the road. Brembo^{®3} 4-piston front calipers, 13.8-inch ventilated, cross-drilled rotors and precisely designed brake cooling ducts culminate in confident, track-ready high-speed braking.

TYPE R

Interior Features

3-Mode Drive System

Switch between Comfort and Sport modes for everyday driving. Select +R mode to adjust the throttle, steering and dampers to a new level of handling at the track.

Driver Information Interface

Keep track of your ride with information about G-force, turbo boost, throttle/brake input, rev-limit and lap time for the track, strategically displayed within your line of sight.

7-Inch Display Audio

Stay in control with a pinchable, swipeable touch-screen that becomes command central for your racing soundtrack, communication and content.

Leather-Wrapped Steering Wheel

Serving up style and purpose, the anatomically designed, leather-wrapped steering wheel features unique red-leather inserts and the legendary red Honda badge.

Steering Wheel-Mounted Controls

A high-performance machine requires maximum attention. Strategic controls help you keep your hands on the wheel and your eyes on the road.

Aluminum Pedals

It's all about control. Firm, precisely placed pedals allow for confident driving at the limit.

Serial Number Plate

Every Type R is fitted with a unique serial number—becoming a one-of-a-kind vehicle that can only be yours alone.

2.0-liter VTEC Turbo Engine

Honda engines are known for producing massive amounts of horsepower per liter of displacement. The VTEC engine has forged connecting rods, sodium-filled exhaust valves and a mono-scroll TD04 turbo, delivering 306 hp¹ and 295 lb-ft of torque.¹

High-Bolstered Sport Seats

Red and black suede-effect sport seats are constructed with aggressive side bolsters that assist the driver in maintaining complete control during the most extreme events.

Close-Ratio 6-Speed Manual Transmission

Rev-Match Control eliminates the need for throttle input while braking and downshifting. A lightweight, single-mass flywheel and helical limited-slip differential help the engine rev without delay and accelerate through corners without excessive wheelspin.

Dual-Pinion Variable-Ratio Steering

An optimal blend of low-speed response and high-speed stability is enabled by a dual-pinion system, creating a direct connection between driver and tarmac.

The perfect lap.

If you love the feeling of pure control and responsiveness, nothing can match the staggering performance of the Type R, available for the first time on U.S. soil. With a balance of design and power, even a short drive brings you closer to the road than you've ever felt before.
