

GT-R®

2024

The best GT-R, ever

No one else makes a supercar like this. One that rewrites the laws of aerodynamics. That uses ATTESA E-TS® All-Wheel Drive to deliver ultimate four-season performance. With a rear seat, even a trunk. We could have sat back and let others play catch-up, but that's not our way — we're driven to constantly improve. So for 2024, you'll find enhanced aerodynamics, improved performance, and even iconic exterior colors. The 2024 Nissan GT-R® Legends never sleep.

Nissan GT-R® T-spec® shown in Millennium Jade.

Mastery at every touchpoint

The GT-R's interior is a masterful blend of premium materials, from hand-stitching in the cabin to a dashboard pad created from a single, hand-selected Nappa leather hide.¹ Subtle etching on the aluminum bezels enhances their feel.

Handmade carbon-fiber interior accents	Hand-stitched leather-appointed interior trims ¹	Machined aluminum interior accents
--	---	------------------------------------

Nissan GT-R® Premium shown in Red Amber Semi-aniline Leather.³

A supercar with a rear seat

Music to anyone's ears, the dual woofers between the rear seats were developed especially for the GT-R® as part of the 11-speaker Bose audio system.

A sharper focus on driving

The Nissan GT-R is a master of letting you decide what information you need and serves it up in a clear, concise manner. From a choice of customizable performance screens to an intuitive Display Commander to control your media, you're in charge.²

5 customizable performance screens ²	Display Commander media controller	Steering wheel-mounted paddle shifters
---	------------------------------------	--

Massive power

The Nissan GT-R® is powered by a twin-turbocharged 3.8L V6 that produces a prodigious 565 hp and an equally immense 467 lb-ft of torque.⁴ For higher horsepower and enhanced response, each side of the VR38 features its own turbocharger, intercooler, and catalyst. Inside, instead of traditional cast-iron liners, innovative plasma-sprayed bores are used in each cylinder to reduce friction and weight, while maximizing horsepower and increasing fuel efficiency.^{4, 5}

565 horsepower⁴

Aerodynamics that refine and define

No other supercar looks like the GT-R. Why? Rather than being confined by the demands of aerodynamics, the Nissan GT-R sculpts the air to its needs — becoming a force of nature, as much as a force to be reckoned with. For 2024, the GT-R continues to pursue aero perfection with new front and rear fascias, which add downforce without adding drag, and a new spoiler, to further perfect airflow.

.26 Cd

Handcrafted performance

Each GT-R engine is assembled by a single craftsman — called “Takumi” — renowned for their dedication and mastery. And with only five Takumi in the world entrusted with the honor, the plaque on the engine bearing their name has true significance. As one of the Takumi says, “We put our souls into each engine, hoping to deliver that excitement to customers.”

Premium Midship platform

GT-R® employs a unique Premium Midship platform that moves the engine farther back in the chassis, reducing weight over the nose for responsive handling. Enhancing the design, the GT-R separates the transmission from the engine and mounts it with the transfer case in the rear of the vehicle, creating an independent rear transaxle. By putting greater weight over the rear axle, traction and braking are improved. A visionary design in the pursuit of ultimate handling.

6-speed dual-clutch transmission

Rapid shifts on demand. Inside the Nissan GT-R's 6-speed dual-clutch transmission, there are separate clutches for the odd (1st, 3rd, 5th) and even (2nd, 4th, 6th) gears. When the car is in an odd-numbered gear, the adjacent even-numbered gear is "pre-selected" — ready to make the shift immediately.

ATTESA E-TS® All-Wheel Drive

Instead of the traditional 50/50 torque split between front and rear axles, the Nissan GT-R's electronically controlled All-Wheel Drive system can send up to 50% of torque to the front wheels as needed or provide nearly 100% of available torque to the rear wheels. This provides the steering feel and response of a rear-wheel drive vehicle — the preferred choice of racecar drivers and serious enthusiasts — while still giving the added confidence that only All-Wheel Drive can offer.⁶

Beyond ultimate — again

Some call it the ultimate Nissan vehicle, the ultimate GT-R®, and even the ultimate supercar. But you know, combining the amazing performance of the GT-R and the passionate engineering of the legendary racing arm of Nissan, we had to take the 2024 GT-R NISMO® even further. Under the hood, 600 horsepower is delivered by turbos from our GT3 racing program for incredible response across the rpm range.⁴ To help put that awesome power down, for 2024, a new front limited-slip differential combines with the rear limited-slip differential, enhancing handling.

Grip is also enhanced with aggressive aerodynamics including NISMO-specific front and rear fascias, a redesigned trunk lid, and swan-neck rear spoiler. To squeeze out every ounce of performance, there's carbon-fiber on the roof, hood, and fenders to reduce weight and bring the center of gravity lower and closer to the center, helping to enhance stability and provide more responsive handling.⁷ Vents on the front fenders increase aerodynamic downforce for sharper turn-in.

Connecting you to the road is a competition-bred suspension working through unique 20" NISMO wheels and special-compound tires to take handling to the next level.

Inside is as beautiful as it is focused, with Recaro® seats, an Alcantara®-wrapped steering wheel with red leather stripe at 12 o'clock, and signature NISMO red throughout the cabin, including the seatbacks, tachometer face, shift lever, and door handle pulls.

481 lb-ft of torque⁴

NISMO high-capacity GT3 turbochargers

NISMO unique 9-spoke forged wheels

NISMO-exclusive carbon-fiber fascias, trunk lid, and swan-neck rear spoiler

600_{hp⁴}

Incredible power requires incredible braking. The Nissan/Brembo® Carbon Ceramic Braking System brings massive stopping power and enhanced fade resistance.

GENUINE NISSAN ACCESSORIES

Because you're not driving a car, you're driving a legend

Every Genuine Nissan Accessory is custom-fit, custom-designed, and durability-tested. Each one is backed by Nissan's 3-year/36,000-mile (whichever occurs first) limited warranty (if installed by dealer at the time of new vehicle purchase) and can be financed when installed by dealer at time of new vehicle purchase.¹⁴

For more information and to shop online for GT-R® Genuine Nissan Accessories, go to bit.ly/24GTR-Accys

CHOOSE YOUR ACCESSORIES

When you're driving a legend, you deserve to show your own personal sense of style — from subtle touches to special items that will wow your envious passengers.

A. Premium Sport Floor Mats w/ Carbon Fiber Inserts (2-piece set)
The ultimate mat for the ultimate supercar.

B. GT-R Pullover
Make a style statement as bold as your GT-R. To shop online for GT-R merchandise, go to bit.ly/Nissan-GTR-Collection.

C. Standard Tool Kit
This 7-piece kit includes a flathead screwdriver, Phillips screwdriver, pliers, two box-end wrenches, a flashlight, and a pair of gloves — all in a stylish case.

D. Chrome Jack w/ GT-R Logo
Exquisitely detailed, it will give you a lift every time you look at it.

E. Carpeted Floor Mats (2-piece set)
Protect your legend with style and comfort.

F. Jack Rod
Works with Chrome Jack w/ GT-R Logo. Helps give your GT-R a lift.

G. Emergency Road Kit
Ready for life's little uncertainties.

H. GT-R Owner's Manual Portfolio
Keep your owner's manual in one convenient case.

Additional Accessories:

- USB Charging Cable Set¹⁵
- Wheel Locks
- Wheel Locks Spin Collar
