RAM 1500 CLASSIC

## **LEGENDARY POWER**

395 MAX HP 410 MAX LB-FT OF TORQUE 10,620-LB MAX TOWING<sup>2</sup>

**POWERED BY A LEGEND** The available 5.7L HEMI® V8 engine churns out bold power, while the hemispherical head design yields built-in efficiencies. Other engineering highlights include Variable Valve Timing (VVT) and fuel-conscious Multi-Displacement System (MDS) that transform this mighty V8 into a robust 4-cylinder when less power is needed.

The standard TorqueFlite® 8-speed automatic transmission enables exceptional acceleration in lower gears while optimizing thermal control for impressive efficiency and durability.

RAM 1500 CLASSIC

## **BUILT FOR EFFICIENCY**

305 MAX HP 269 MAX LB-FT OF TORQUE 7,660-LB MAX TOWING<sup>2</sup>

**BUILT FOR EFFICIENCY** The 3.6L Pentastar® V6 engine features Variable Valve Timing (VVT) that adjusts intake and exhaust valve timing to enhance combustion and performance, resulting in impressive horsepower and torque numbers. An innovative Thermal Management System helps keep critical internal components operating at ideal temperatures for optimal power, performance and efficiency.

The standard TorqueFlite® 8-speed automatic transmission uses smart technology to automatically handle and optimize shift changes for ideal drivability.

#### **TONNEAU COVER**

The available tri-fold tonneau cover provides peace of mind and protection, as well as promoting airflow for reduced drag.

#### STEEL DEPLOYABLE BED STEP

Foot-controlled for use or to tuck it back under the bed. Available at **mopar.com** 

#### **POWER LOCKING TAILGATE**

Lock and unlock the liftgate with a quick push of the key fob button. Convenience and security are just that easy.

#### **IN-BED LIGHTING**

Controlled by a switch or activated when the unlock button on the key fob is pushed. Available.

#### SOLID STEEL BED

Ram 1500 Classic cargo beds are constructed with tough, high-strength steel.

#### AIR BAG<sup>3</sup> TECHNOLOGY

Protection comes from advanced multistage front air bags<sup>3</sup>, supplemental side-curtain air bags<sup>3</sup> and front-seat side-mounted air bags<sup>3</sup>.

#### **SIDE-IMPACT DOOR BEAMS**

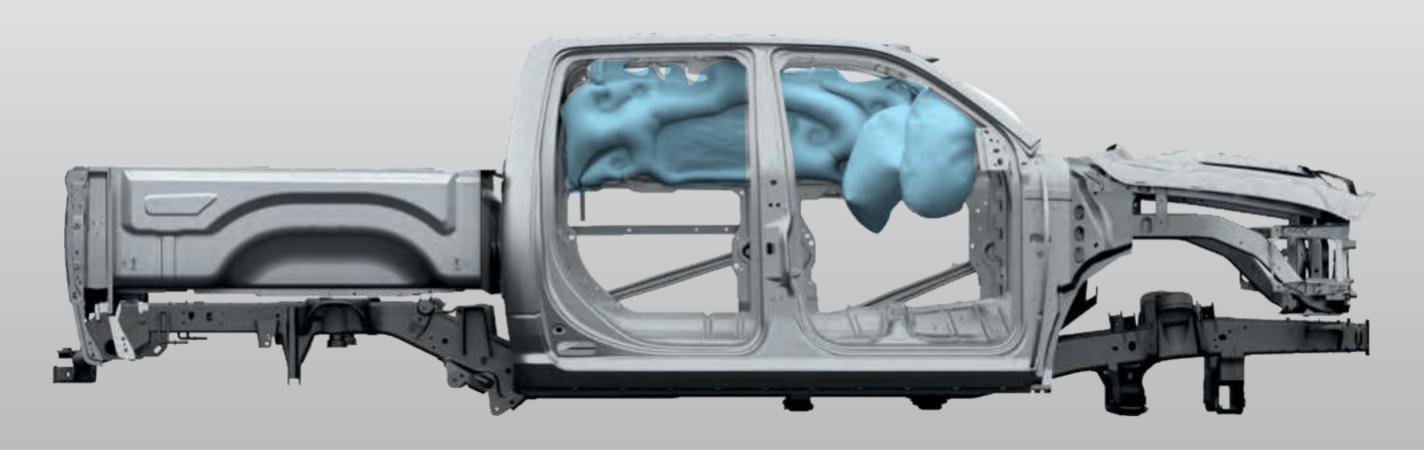

They reinforce the protection against side-impact force—helping to protect from every angle.

#### **DYNAMIC FRONT CRUMPLE ZONES**

Engineered to bear the brunt of an impact, they're designed to help keep driver and passengers safe and secure.

## ALL-AROUND DURABILITY

THE BACKBONE THAT UNDERPINS THE CAPABILITY

#### **TOWING AS IT SHOULD BE**

Towing can reach up to 10,620 lb<sup>2</sup> with the available Class IV hitch receiver that attaches directly to the high-strength steel frame.

#### LINK COIL REAR SUSPENSION

Proven over years and miles, our link coil rear suspension is tough and durable—with outstanding ride quality.

#### **ANTISPIN REAR DIFFERENTIAL**

This available asset markedly increases traction in wet or snowy conditions.

#### **ACTIVE GRILLE SHUTTERS**

Bringing invaluable cooling to the engine compartment, these shutters adapt to speed, load and engine needs while also helping reduce aerodynamic drag.

## PROTECTING WHAT MATTERS MOST

# DRIVER-ASSISTED SAFETY & SECURITY FEATURES

#### TRAILER SWAY DAMPING<sup>4</sup>

Tow with confidence—Trailer Sway Damping<sup>4</sup> detects yaw and applies selective brake pressure on the tow vehicle's opposite side to counteract and reduce the sway.

#### PARKVIEW® REAR BACK-UP CAMERA¹

This standard system displays a helpful visual reference of what is behind your vehicle when it's in Reverse.

#### AVAILABLE PARKSENSE® REAR PARK ASSIST<sup>5</sup>

This invaluable feature uses integrated sensors with ultrasonic waves to detect objects as far as 47 inches away from the rear bumper. Read-outs located in the gauge cluster display team up with audible chimes to notify the driver of proximity to rear objects.

#### AVAILABLE FULL-SPEED FORWARD COLLISION WARNING PLUS<sup>6</sup>

Radar and camera technology combine to alert you when the system senses a potential frontal impact. If you're not able to respond quickly enough, the system will automatically engage the brakes with the ability to bring the vehicle to a complete stop.

#### **BRAKING SUPPORT**

The Ram 1500 Classic braking system features optimized pedal travel to provide quick power assist. Rear wheel-speed sensors are positioned for protection against road elements. ESC<sup>7</sup> features multiple assets for braking; it even includes vehicle control when stationary.

## STANDARD ELECTRONIC STABILITY CONTROL (ESC) SYSTEM

Help regulate wheelspin with comprehensive All-Speed Traction Control. If slippage occurs during acceleration, the electronic throttle control will reduce torque; in extremes (like accelerating from pavement to ice), it will apply the brakes and reduce the engine power to maintain control.

#### THE MOST NOTABLE COMPONENTS OF ESC<sup>7</sup>

Stop securely with the Antilock Brake System (ABS). Monitoring each wheel's speed, the Ram 1500 Classic ABS design also incorporates backup braking should one of the two braking circuits become compromised.

#### **BALANCE THE BRAKING**

Electronic Brake-Force Distribution regulates brake pressure from front to rear to minimize stopping distances. Anticipate potential trouble. Ready Alert Braking senses when the driver's foot is lifted from the accelerator; it applies an imperceptible brake force to ensure that pads and discs are lined up should an emergency stop be required.

#### **FACTOR IN THE WEATHER**

Rain Brake Support automatically and seamlessly activates when the driver turns on the windshield wipers; all brake calipers gently pulse against their respective rotors to remove water from the pads.

## MAKE IT HOME WITH HYDRAULIC BOOST COMPENSATION

Should a failure occur in the vacuum brake booster or any related line, the brake controller will kick in to run the ABS pump. The system will even convey notice of the problem to the driver, and the brakes will perform as normal until the failure is serviced.

#### STAY STILL WITH HILL START ASSIST

When the vehicle is on an incline, this system keeps your Ram Pickup stationary for two seconds after the brakes have been released or until the accelerator is depressed.

# **Dconnect**

## IN TOUCH WHEREVER YOU GO DRIVEUCONNECT.COM

Uconnect® brings a wide range of interactive features to your vehicle and beyond through a highly intuitive communication experience. Trips are enhanced with informative and entertaining apps. Access them on your Uconnect touchscreen as well as your smartphone. Listen to your favorite playlist from your connected device, then flip to SiriusXM® Radio® and enjoy the best commercial-free music, plus every major sport and the biggest names in entertainment, news and comedy. You'll get over 150 channels, all at the press of a button. With SiriusXM Platinum Plan, you get every channel available on your Sirius XM Radio<sup>8</sup> and you can also listen wherever you go on your portable devices with the SiriusXM App,8 which is included with your six-month trial. Available. Drive confidently with a premium suite of safety and convenience services that can be accessed in-vehicle or through the Ram App.9 Available.

Download the Ram App<sup>9</sup> to your smartphone for access to certain vehicle information.

Notes regarding the charts above: numbers in Black boxes reflect max ratings. Payload and Max Trailer Weight are estimated as specified in SAE J2807. Payload and Trailer Weight Rating are mutually exclusive. GAWRs, GVWRs and GCWRs should never be exceeded. The recommended tongue weight for a conventional hitch is 10 percent of the gross trailer weight. Trailer weight recommended for trailers over 5,000 lb.
